

1. Software Requirement Specification (SRS) – Online Student Portal Management System

1. Introduction

The Online Student Portal Management System is a web-based application that helps students access academic information online. It allows students to view their profile, attendance, marks, timetable, assignments, and notices in one place.

2. Purpose

- Provide students with easy access to academic information.
- Reduce paperwork and manual record management.
- Improve communication between students and the institution.

3. Functional Requirements

- Student Login and Logout
- Student Registration
- View Student Profile
- View Attendance
- View Marks/Results
- View Timetable
- View Assignments
- View Announcements/Notices
- Change Password
- Admin can manage student records

4. Non-Functional Requirements

- User-friendly interface
- Fast response time
- Secure login
- Data privacy and security
- Compatible with modern web browsers

- Reliable and available 24/7

5. Hardware Requirements

- Computer/Laptop
- Keyboard and Mouse
- Internet Connection

6. Software Requirements

- Operating System: Windows/Linux
- Web Browser: Chrome, Edge, Firefox
- HTML, CSS, JavaScript
- Database: MySQL
- Server: XAMPP/WAMP

7. Users

- Student
- Administrator
- Faculty (optional)

8. Expected Outcome

The system enables students to access academic information anytime, saves time, improves efficiency, and simplifies college administration.

9. Advantages

- Reduces manual work.
- Saves time.
- Provides quick access to information.
- Improves communication.
- Secure data management.
